

# Keystone Local School District

Dear Parents/Guardians,

Beginning with the 2016-2017 school year, the Ohio Department of Health School Immunization Requirements have been revised to include one dose of **Meningococcal (MCV4)** vaccine to be administered before a student enters the seventh grade. Therefore, your current sixth grader will need to show proof of having received the Meningococcal (MCV4) vaccine before they can return to school in the fall.

Your child also requires a dose of **Tdap** to be administered before a student enters the seventh grade. This dose is intended to be administered as a booster dose for students who have completed the required doses of the initial series of DTaP/DT/Td. Therefore, your current sixth grader will need to show proof of having received this booster dose (Tdap) before they can return to school in the fall.

You are receiving this letter now to provide you with ample time to have your child immunized before the coming school year begins. Please contact your physician or the Lorain County Health Department (440-322-6367) to schedule an appointment.

**This form must be completed and returned to the school by September 19, 2016 or the student may be excluded from school until completed.**

Toni Filut- Principal

Natalie Stanic- District Nurse
